

TECHNICAL SPECIFICATION SHEET

T-418

Early Storage / Export Onion

This is a new hybrid long day onion suitable for the eastern storage and western export markets. T-418 has excellent size for its maturity and has excellent uniformity. Storage potential for this hybrid is very long, typically can be stored to March. Scales have a dark golden color and the necks are small. T-418 is tolerant to Downy mildew, Fusarium basal rot, soft rot (*Botritis allii*) and bacterial soft rot. Size potential is larger than Frontier, and bulb shape is a slightly flattened globe.

Variety	Relative Maturity	Bulb Shape	Grade Range	Skin Color	Storage Potential	Disease Resistance
T-418	100 days	Flattened Globe	M	Dark Brown	6 months	FBR
